

LAXMI DORNAL

Computer Science & Engineering

+91 9209837308 • laxmidornal12@gmail.com • linkedin.com/in/Laxmi Dornal • github.com/laxmidornal123

Summary

Computer Science Engineering student with hands-on experience in Machine Learning, Python, and Web Development. Skilled in building CNN-based medical image classification systems, data analytics dashboards, and full-stack web applications. Proficient in TensorFlow, Django, Power BI, SQL, and REST APIs. Seeking an entry-level role as a Software Developer.

Technologies

Programming: Python, C, C++
Machine Learning: TensorFlow, Scikit-learn, OpenCV, CNN, NumPy, Pandas
Web Development: HTML, CSS, JavaScript, React, PHP, Django
Databases: MySQL, PostgreSQL
Data Analytics: Power BI, DAX, Excel, SQL
Tools: Git, GitHub

Education

Dr. Babasaheb Ambedkar Technological Engineering(DBATU) University, Lonare.
Institute Name: Vidya Vikas Pratishthan Institute of Engineering and Technology, Soregoan. Year of Completion: 2026
CGPA: 8.04

State Board of Technical Education(MSBTE).
Institute Name: S.S.W.P ,Solapur. Year of Completion: 2023
Percentage: 82.23

Maharashtra State Board of Secondary & Higher Secondary Education.
Institute Name: Ahilyabai Prashala, Solapur. Year of Completion: 2020
Percentage: 88.20

Internship Experience

Web Development Intern — Vertex Technosys, Solapur

Jul 2022 – Aug 2022

- Developed responsive interfaces using HTML, CSS, and JavaScript.
- Built a 5+ page furniture e-commerce website using PHP and MySQL.

Data Analytics Intern — Codec Technologies Pvt. Ltd.

Nov 2025 – Dec 2025

- Cleaned and analyzed 5,000+ records using Excel, SQL, and Power BI.
- Built dashboards that reduced manual reporting time by 40%.

Python Development Intern — QSkill

Jan 2026 – Feb 2026

- Solved 30+ Python programming problems.
 - Completed 3+ mini projects to improve coding accuracy.
-

Projects

Skin Cancer Detection System

- Built web application using a **CNN model** to detect early-stage skin cancer from medical images, achieving **92% accuracy**.
- Implemented real-time prediction and visual result output, increasing **diagnosis efficiency by 40%**.
- Reduced manual screening time by automating image analysis and result generation.

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Python, MySQL, Machine Learning

Responsive Blog System

- Built a dynamic blog platform that enables users to **create, edit, and comment on posts**.
- Implemented user authentication and content categorization, ensuring **100% secure user access**.
- Designed a mobile-friendly, responsive interface using HTML, CSS, and Bootstrap..

Tech Stack: HTML, CSS, Bootstrap, MySQL, PHP

Sales Analytics Dashboard using Power BI

- Designed interactive dashboard visualizing **key sales metrics across 12 regions** for data driven decision.
- Integrated multiple data sources for **real-time analysis** reducing manual reporting effort by **60%**.
- Leveraged **Power BI** filters and drill through feature to uncover **sales growth insight and performance trends**.

Tech Stack: SQL, DAX, Power Query, Data Cleaning, Data Visualization

Hospital Analytics Dashboard using Power BI

- Built a dashboard to analyze hospital operations, **patient data and financial performance**.
- Integrated multi-source healthcare data to reduce **manual reporting and improve decision**.
- Identified trends in patient admissions, resource usage and treatment outcome using **Power BI analytics**.

Tech Stack: SQL, DAX, Power Query, Data Cleaning, Data Visualization

Certifications

- Data Analysis Certificate
- Python Programming Certificate
- SQL Certificate
- Deloitte Internship Certificate
- PowerBI Certificate
